Grower's Secret Strike 5-0-0 is a nitrogen-rich fertilizer suitable for use in, farms, and commercial production. Appropriate for plants grown in greenhouses, landscapes, and agricultural settings. May be applied to fruit, nut, and ornamental trees, shrubs, vines, small fruits, vegetables, and other landscape plants.

MIXING INSTRUCTIONS: Mix well in the desired amount of water. Grower's Secret Strike 5-0-0 is believed to be compatible with most fertilizers, plant nutrients and pest control products. It is recommended that a physical compatibility test be conducted using small quantities in proportion to field application rates. Since lack of phytotoxicity on all crops has not been confirmed, test mixtures on a small portion of the field before wide spread application.

DIRECTIONS FOR USE:

Recommended rates are intended as a guideline only and may not be suitable for all regions, conditions, and crops. Specific application rates and timing should be determined from crop and soil analysis.

Agricultural and Horticultural Crops: Apply 1-5 quarts (0.95-4.7 L) per acre for soil applications and 1-2 quarts (0.95-1.9 L) per acre as a foliar application.

Lawn and Garden: Mix 1-3 fl. oz. (30-90 ml. of fertilizer) per gallon of water. Apply as a foliar spray, soil drench, or through irrigation systems every 2-4 weeks or as needed. For lawn and turf applications, do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply only to the intended application site.

Do not apply in close proximity to seeds or transplants. Do not apply to crops when soil temperatures are below 45 degrees Fahrenheit (7.2 degrees Celsius).

☐ 275 gallons (1041 L) Net wt. 2519 lbs. (1142.60 kg)
